Hello Angelina,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, numbered 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Angelina's character

Angelina's energy level

You have predominantly hands-on attitude towards personal and professional situations and crises. You react swiftly and spontaneously, taking the initiative in order to control events and steer them your way. Indeed, you need to feel in control to be really happy. You have a lot of dynamic sometimes irrepressible energy and a corresponding fund of enthusiasm. Inclined to be hot tempered, you can flare up quickly and easily. However, just as easily, you forgive and forget, for your energy is too fast-flowing and therefore continually regenerative, to become stuck on things which rapidly become overtaken and superseded by time.

Angelina's dependability

You might not always find it easy to establish stability in your life, especially on a material level. Therefore, finances, home, and other essential practicalities may need extra effort on your part. You need to develop a structure which allows you to be ordered and methodical.

Angelina's temperament

Angelina's capabilities

You have an enterprising, direct attitude and are quick to exploit opportunities. In pursuing your goals you can, however, be unsubtle and selfish. Being both mentally and physically active, however, makes you certain of always having a goal to strive for.

Angelina's consistency

Your ability for concentration and discipline may be somewhat erratic at times. Accordingly, others might find it difficult, albeit mistakenly, to feel from you a corresponding sense of conviction and constancy.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in 6⁹

Self-identity

You have powerful feelings, sympathy and compassion. Family matters will also be of paramount importance to you.

Alternative Rising Sign?

Your Ascendant falls near the cusp of the following Sign. So if your birth time is possibly up to an hour or so later than what you have given it as, you could have a Leo Ascendant.

AS in ♈

Self-identity

You project yourself with energy, dignity and pride and need to be acknowledged as someone whose ideas and opinions are worth considering. However, at times, this need to push yourself forward could be overdone making you appear somewhat forceful, abrupt or pushy.

[end of alternative rising sign]

AS ♁ ☉ ★★★★★☆

Striving for success

There is a conflict between the way you express yourself and your inner sense of self-identity. There may be a feeling of blocked energy and a sense of frustration that you don't really come across to others as you really are. This sense of frustration probably comes from your experience of your parents. One or both of them may have prevented you from being yourself and expressing yourself in the way that you wanted.

However, you can release this energy through the disciplined pursuit of some ambition or path, so that through your achievements you can confidently feel that you did it yourself; and in your own way.

AS ♀ ♀ ★★★★★★

Charm

You're able to express yourself with charm and diplomacy. You're generally willing to compromise where necessary, but necessary usually means whether it's to your advantage! If you feel that a compromise leaves you the loser, or you won't get what you want, you simply won't go along with it. In fact, beneath the polished veneer there's a strong element of self-interest so you know how to use your talents to further your own interests, or to cultivate social contacts that will benefit you in some way.

AS ☐ ♃ ★★★★★★

Shocker

You have a restless and erratic temperament. Possibly your experiences as a child have left you feeling afraid to get too close or too dependent on others.

You insist on going your own way and doing your own thing, but your demands for complete freedom from responsibility will create inevitable conflicts especially in your relationships. If you feel that you are being tied down, in spite of all your efforts to avoid such a situation, you will break away from the restricting influence, often in ways that will surprise or even shock others, often quite deliberately.

However, you'll also have to learn that if you're not around for others when they need you most, you can't expect them to be around when you need them!

The Sun

Your essential self, the focus of your being. It indicates what you are striving to become as an individual.

☉ in ♀

Vitality

You're usually on the go and have a natural ability to do two or more things at once. You're forever being accused of being two-faced and having a split personality. Nonsense! It's just that you're faster and more versatile than most and other people resent this.

However, there is a tendency to change your tack in mid-course; then back again, then back. You'll therefore need to develop the willpower to see a particular course of action through to its conclusion.

There's a restless need for a variety of different contacts and relationships. You also have a need for constant intellectual stimulation and welcome the opportunity to express your opinions, which you can do very well on a number of different subjects.

11th house

Where you look to the future your hopes and wishes. Your friends, how you act in group situations and the kinds of groups to which you are attracted.

☉ in 11th House

Self expression

You may find you need a large circle of friends and acquaintances. This need can be extended to various groups and associations that are trying to achieve some sort of social change. Through such groups you'll be able to express yourself openly and gain a sense of purpose and direction. However, you'll need to suppress the desire to always be the leader of such groups as you may not always be the right person for the job.

☉ ✨ ☾ ★★★★★

Foundations

You have learned from the experiences of your past and these experiences serve as a valuable foundation for the present and the future. You have the inner confidence and courage to face life's challenges.

Your relationship with your parents as a child would have probably been without major conflicts and this has carried into adulthood. You generally get on with your parents; they're always there to lend a helping hand when you need it. Even if their own relationship had problems, this probably wouldn't have had any long-term effects on your own relationship with either of them.

☉ ♋ ♀ ★★★★★

Attractive

You are physically very attractive. Usually this is a blessing, but at times it causes you problems, when you would rather not be noticed, but this seems to be impossible. This may cause you to feel uncomfortable and angry and insecure, and you will find it difficult to articulate your feelings because you are shy and soft-spoken by nature. Be aware that this will be a continuing problem. Learn to use it to your best advantage whenever possible and try to develop strategies so that you can maintain your privacy and peace of mind.

Compromise

You have tremendous energy and are eager to get ahead in life. You have the courage of your convictions and will not rest until you achieve your goals.

You can be forceful and direct in expressing your ideas. If you feel you're winning an argument you'll hammer the point home, but you're also willing to admit that you're not always right. Indeed, if you can see that you're wrong, you'll admit defeat gracefully.

Will-power

You are a very strong willed and independent. When younger, you'll probably have been very rebellious and, even now, others may regard you as an individualist with little or no regard for rules or authority. In fact at times you may deliberately set out to shock others just to prove that you won't be bound by any rules or restrictions.

You value your personal freedom very highly and may even deliberately disrupt a stable situation if you feel it has become too restricting or confining. Your interests and goals may change suddenly several times throughout your life.

This represents a challenge to be met and conveyed into positive directions. Always ready to help those in need, you often put your energetic nature to work for others, rather than yourself, and fight for the freedom and the needs of others who can't fight for themselves.

Dreamer

At times you may have some difficulty separating fact from fiction. You're a dreamer with high ideals but you may tend to look to others to make your dreams a reality, and if they fail to do so, you may feel confused and let down.

Rather than looking to other people to deal with life for you, you need to find your own sense of purpose and direction. Your biggest enemy is your own self-doubt, which causes you to underestimate your own abilities, and perhaps turn down opportunities for growth that would have been of great benefit to you.

Ambitious

You'll have a strong desire to make something of yourself and the determination to succeed in whatever task you set yourself. You would like to bring order out of chaos and to encourage and teach others to achieve their full potential. Others will admire you for your courage and determination in fighting for what you believe to be right. They'll appreciate that your arguments are based on a deep insight and a genuine desire to put things right.

You'll also be aware that people's lives are, at times, guided by some higher purpose or power and that even difficult or painful experiences often lead to greater opportunities and personal accomplishment. As a result, you're generally able to weather your own personal crises with the knowledge that it will lead to greater self-understanding and bigger and better success.

The Moon

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

Habits

You're naturally persuasive and can easily attract others to you. You react very quickly to situations around you, but remember to look before you leap!

You're potentially volatile and overpowering, but sincere and loving as well. You have an enthusiasm for life, and a naturally direct approach, but you may occasionally need to develop patience. You may be patient and understanding, but if you're caught unexpectedly, or your feelings are hurt, you can surprise yourself and others with the strength of your anger and aggression.

9th house

Your search for knowledge and awareness through travel and higher education. The law, religion and the use of your higher or more intuitive mental faculties.

Attitudes, emotions and specific needs

Philosophy, religion, travel and higher education are of interest and you may find emotional security from some belief system. This may be inherited from your family background, but you have the ability to adapt your philosophy to changing influences and conditions.

Travel may be linked with your emotional life and you may live abroad for a time. There's also an attraction to women of a foreign culture, or who can expand or broaden your horizons in some way.

Emotional sensitivity

You have a high degree of emotional sensitivity. You're genuinely hurt by criticism, even when it's not meant to be taken too seriously. There will be times when you'll find it difficult to forgive people who have hurt you in the past. Even if you want to and can understand their reasons, the memory of your pain keeps coming back to haunt you, giving rise to feelings of frustration and anger.

Your emotions and enthusiasm are closely linked. When you're feeling good you can work tirelessly toward an objective, but when you're feeling down your motivation evaporates and you feel unable to do anything - even daily chores seem a bind.

Emotional support

You're both generous and sympathetic towards others with a genuine concern for those in need. Any personal ambitions you may have will be directed by a need to contribute something positive which benefits others as well as yourself. You learn something positive from all your experiences. This optimism and faith helps life to work to your advantage and things will generally work out well for you.

☾ □ ♃ ★★☆☆☆

Emotional expression

You may occasionally have a tendency to place duty and responsibility before your emotional needs. It may be that in your childhood not enough attention was given to your emotional needs, leaving you feeling that they are unimportant, or that they should be sacrificed to more practical concerns.

Perhaps you experienced your parents as being very critical or detached, or perhaps one or both of them was not there at all. As you grow older you'll learn to make your own criticisms of yourself and not take the opinions of others too much to heart. It's therefore important that you find some way of expressing yourself emotionally, and learn to listen to your heart as well as your head.

☾ △ ♃ ★★☆☆☆

Vulnerability

Very receptive, you can be acutely aware of the needs and feelings of others, being able to pick up on the atmosphere around you.

However, perhaps at times you're too sensitive, so that whilst you're open to the needs of others, you may not always be too sure about your own needs and feelings. This makes you vulnerable and liable to be taken advantage of, perhaps without you even being aware of it.

☾ ♃ ♀ ★☆☆☆☆

Emotional strength

You possess deep feelings that may occasionally be difficult to get to grips with or to understand. Your personal life may often be the scene for intense emotional power battles in which one or both of you attempts to manipulate the other through feelings of guilt, jealousy and possessiveness. The source of these confrontations probably lies in your past. You will need to understand that source before you can effectively deal with the problems at hand.

With this aspect you'll go through changes throughout your life that will force you to look within yourself to deal with problems and answer important questions but you'll always emerge from these periods a stronger person than you were before.

♀

Mercury

Represents your communication skills and how you think and receive information from others.

♀ in ♀

Mentality

Your mind is both lively and enquiring! You're able to learn a variety of different subjects and prefer short-term projects which don't demand too much of your precious time.

You'll also have a great need to communicate your insights and knowledge to others. As your interests are so varied, different ideas and possibilities are always crowding your mind and therefore you may occasionally find it difficult to concentrate on one thing for too long. This can make your thinking rather scattered and makes it difficult to make up your mind on anything, probably only to change your mind when you do!

The problem is trying to work out which particular interests you really want to pursue. Still, just because you flit back and forth between projects doesn't mean that you can't succeed. If anything, success will be more wide-ranging, over a number of different fields.

♀ in 11th House

Communication skills

You have an intelligent, progressive mind. You may also become involved in various group activities, where you can meet people who will help you acquire the skills you need to pursue your goals in life. Indeed, it's generally through these group situations that you can most easily express yourself and put across your ideas and opinions.

You would make a good teacher or lecturer, or could work in any field that involves communication and the media. You have many original and inventive ideas which you need to get across to as wide an audience as possible. Friends will often inspire you with their energy, helping you to clarify your thoughts and make the most of your ideas.

However, there may be issues around brothers and sisters which will have to be faced and dealt with at some time. Friends will also be important here, either as part of the issue, or instrumental in helping to resolve them.

♀ △ ♃ ★☆☆☆☆

Inventive

Your mind works so fast that you may consider other people's thinking to be slow by comparison. You can identify problems quickly and make logical leaps that others may ponder over for a long time. When you reach a conclusion it seems as if the answer just came intuitively, when it was in fact the result of extremely fast analysis. You have an original and inventive mind, open to new ideas and new ways of thinking and you seek new knowledge avidly.

♀

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

♀ in 6⁹

Capacity for love

You are a sensitive, loving and emotional individual who needs to find a deep sense of emotional sharing with another person. However, the fear of being hurt could cause you to hide behind a barrier until you feel secure enough to express your true feelings. When you do, however, you're sensitive and caring but may occasionally overdo it.

Your approach to love is deeply linked to your need for a home and security. Security is a prerequisite for love. That's not to say that this is all that you're looking for, it's just that you'll find it difficult to relate emotionally to another person unless these needs are satisfied. For you a house is not a house, but a home, somewhere where you can feel relaxed and comfortable.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self understanding and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

♀ in 12th House

Love and what you value most

There may be occasional confusion surrounding your love life, as at times you may not fully understand your own needs in a relationship.

♀ □ ♃ ★★★★★

Unconventional relationship

At times you may experience some difficulty and sudden changes or breaks in your relationships. If people try to get too close too quickly you'll rapidly back off.

You also probably have little regard for traditional forms of marriage since this would considerably reduce your freedom to do what you want, a freedom you don't easily relinquish. Any form of jealousy and possessiveness particularly horrifies you.

Even if you are involved in a serious relationship, or married, you'll still demand a great deal of freedom and independence for yourself. You may try to suppress these needs for a while out of respect for the other person's feelings or wishes, but if you do so for too long, the tensions will build up until your need for freedom erupts to the surface.

♂

Mars

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

♂ in ♈

Driving force

You are direct and forceful with a strong self-assertive and competitive urge. There's also a strong need for independence, but it might be a type of independence based on a lack of thought for others.

Aggressiveness, impulsiveness and a tendency to over-react are also qualities that may need to be controlled. You'll generally be very direct when it comes to getting what you want, with little beating about the bush, but you will have to control the urge to leap before you look.

♂ in 9th House

Stamina and assertiveness

You'll put a great deal of energy into travel, study possibly of a philosophical nature and fighting for the rights of others. You could therefore achieve success as a teacher, lawyer or writer.

♂ ♃ ♃ ★☆☆☆☆

Driving ambition

You have a driving ambition to achieve something worthwhile with your life. When challenged you don't admit defeat easily, always eager to fight back. You can therefore be a considerable force to be reckoned with!

You possess the optimism and faith that you will eventually get what you want if you try hard enough.

However, at times, you'll need to be careful to evaluate just what is possible and not get caught up in too many unrealistic plans, or promise more than you can deliver. If you can do this, then your life can become an adventure in which you meet challenges with enthusiasm and the inner certainty that you'll succeed.

♂ □ ♃ ★☆☆☆☆

Making plans

You may occasionally have some difficulty in asserting yourself and getting what you want. You can alternate between being aggressive and submissive. At times you may refuse to assert yourself, or to stand up for yourself even when it is necessary, but at other times, you can suddenly release anger, surprising others with the ferocity of your attack. Energies must therefore be directed toward planned objectives. If you don't do this, then the unused, frustrated energies can become dammed up and the resulting rise in inner pressure may well be experienced as anger.

♂ △ ♃ ★★★★★

Effectiveness

There's often an idealistic, even spiritual, motivation behind many of your actions. As a result, you generally have no difficulty in looking after your own needs, and at the same time, the needs of others.

You wouldn't be an easy person to deceive as you generally know instinctively when someone isn't telling the truth. Even if you have no direct evidence, you just 'feel' it.

You are good at dealing with other people's problems, or with the general public, as you have a magnetic quality that others find attractive. With your ability to see clearly how present circumstances are the result of past actions, you're able to help others with the insight you have gained from your own experiences.

♂ ♀ ♃ ★★★★★

Powerful understanding

You have tremendous reserves of raw power that need to be directed into creative rather than negative uses. Most probably, through the experiences of difficult relationships you'll learn to cope with the problems that arise in your life with great depth and insight, leading to a better understanding of yourself and those around you.

♃

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

♃ in ♈

Optimism and understanding

You will need to maintain a high energy level, coupled with a sense of self-esteem, in order to make the most of opportunities that come your way. This will be easy enough when things are going well, (at such times you'll feel confident and determined) but when things go wrong your determination may dissolve or you could react with anger.

You're an independent individual who needs freedom to pursue your own goals and what's more - you don't like to be obstructed on the journey.

♃ in 9th House

Optimism and understanding

It's through experience connected with travel and higher education, religion and philosophy that you can best grow beyond your present mental and physical limitations and find faith and meaning in life.

Indeed this is a good placing for long distance travel and your travels will be most beneficial if undertaken as a learning experience, for the purpose of gaining greater understanding and knowledge. In these matters foreign people should be of great benefit to you.

♃ □ ♃ ★★★★★

Motivation

Your optimism will be subject to restrictions. At times you may be full of confidence, with everything going well, but at other times you could be held back by self-doubt and obstacles. However, if you learn to strike a balance between optimism and self-discipline, then you'll eventually be rewarded for your efforts.

♃ △ ♃ ★☆☆☆☆

Idealist

You can be something of an idealist. You feel intuitively that there is more to life than meets the eye and that spiritual or unseen forces are at work to help shape our destiny. You also feel the need to understand the nature of these forces.

You have an easy-going nature, but if you follow your natural inclination to go with the crowd you could often find yourself in circumstances that you would rather have avoided. Seeing the best in everybody leaves you open to being deceived and let down, but you are usually able to pick yourself up again, and you find that a helping hand is usually available when you need it most.

♄

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

♄ in 6⁹

Challenges

You may have blocked or repressed feelings and emotions concerning your home life or early experiences. You may find it difficult to express your feelings openly, possibly as a result of being inhibited when you were young. Perhaps one of your parents placed too much emphasis on duty and responsibility not providing the affection and emotional support you craved.

Because of this, others may now occasionally find you to be somewhat reserved and lacking emotion, but this simply isn't true. Indeed, your feelings run deeper than most, but you don't openly reveal them until you're sure that they won't be rejected or ridiculed.

There may be an over-emphasis on the need to acquire material possessions or property, believing that this will provide the stability and security that you crave but the lesson to be learned is that security can only come from within. Once this has been achieved, you'll then have an unshakeable grounding from which you can go out to meet and conquer the world.

♃ in 12th House

Setbacks and insecurities

You may occasionally be suspicious of other people's motives. At times you'll need to completely withdraw from others in order to realign mind, body and soul but people who don't really understand you may feel that they are being personally rejected.

You may find it difficult to make a commitment to anyone, or anything, out of a fear of losing your own individuality. If you can find the courage for some honest self-examination, and get to the root of what is really bothering you, you'll find or rediscover, the courage of your convictions.

Uranus

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

♅ in ♌

Independence

You attract unusual friends and unconventional romance but will always demand freedom and space to pursue your own goals and ambitions. So do think twice before rushing headlong into making a long-term commitment or the relationship could end in divorce or separation. Nevertheless, your ability to communicate new ideas to others can help open their minds to possibilities and experiences never encountered before.

4th house

Family and cultural conditioning, your a sense of belonging, deep inner feelings and habit patterns. Experience of your parents, your own home, and conditions surrounding you during the second half of life.

♅ in 4th House

Individuality

There could be difficult circumstances surrounding your home life. There may be many disruptions in this area, making it difficult to put down roots or feel secure. This may stem from your early experiences with your parents, one or both of them may have been unstable or unpredictable and you may not have known when or whether they were going to be there.

On the other hand, your parents may have been involved in some activity that brought you into contact with different cultures and belief systems. As a result of these experiences, you now attract the same sort of energy into your own home and private life.

There will be times when no matter how hard you try to settle down, circumstances or other people will seem to do their best to disrupt your security. Perhaps the way to deal with this is not to seek security along conventional lines. Security comes with the freedom to be yourself and allow others to do the same.

Neptune

Represents your spiritual self, dreams, imagination and creative abilities.

♃ in ♈

Idealism

Born between 1970-1984, you are part of a generation that will develop a need for higher religious, mystical and spiritual values. Travel will attract you as will the exchange of ideas and religions with other countries.

5th house

Your creativity, either expressed through children, or through various art forms. Leisure activities, sports, gambling, love affairs etc. in fact all forms of recreation where you express yourself freely and without inhibition.

♃ in 5th House

Self sacrifice and uncertainty

You have a strong creative imagination and the ability to turn artistic expression into concrete reality. However, there may be some form of sacrifice or confusion that is experienced, perhaps sacrifice all for art's sake, or you may be forced to give up your creative and artistic aspirations to deal with more practical duties.

You're intensely idealistic in your romantic pursuits, willing to sacrifice all for love or being content to worship from afar. With children, also, there may be an element of sacrifice; perhaps you'll feel that you have to give up your own aspirations for the sake of your children. If this is the case there is a danger of attempting to live out your own ideals through them, rather than let them find themselves and learn by their own mistakes.

♃ ✖ ♀ ★☆☆☆☆

Generational influences

Starting in 1942, and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

♃

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

♃ in ♎

Forces of change

Pluto was in Libra between 1971-1984. You were born at a time when more peace and arbitration was sought to try to avoid worldwide war.

3rd house

Your relationship to the immediate environment. Experience concerned with communication, learning, intellectual and educational skills. Relationships with immediate relatives, brothers and sisters if you have any.

♃ in 3rd House

Secrets, powerful obsessions

You have a need to understand the power within us all. At certain times in your life, powerful emotional crises may force you to change the way you think and react to others.

You're not satisfied with superficial or obvious solutions to problems as you're aware that there are deeper and more powerful emotions and motives underlying the actions of people, even when dealing with their everyday lives. You have the ability to create deep changes in other people's perceptions of themselves and the world around them.

You will occasionally be forced to face your deepest fears - sometimes with accompanying emotional pain. You may feel at times that a part of you has died, but the death of an old way of being or feeling usually has to occur in order to make way for something new to grow.

MC

The Midheaven

Represents your ambitions and potential for achievement.

MC in ♈

Career

Believing there's nothing you can't achieve, you focus your energies in a self-assertive and aggressive way. Throughout your life a great deal of energy will be directed towards the attainment of professional ambitions. You're able to work extremely hard until a job is done. However, this unbridled confidence and determination could at times threaten colleagues and even those in authority. Disagreements with your father are also likely.

♁ in ♈

Future growth

Give up routine life, take some courses in what interests you the most, be it travel or psychology. Get past that block to expanding your horizons.

♁ in ♀

Developing experience

Try something unfamiliar that excites you to be enthusiastic.
