Soul Scope - Introducing Yourself To You

Above is your name, and birth details. Please check this information is correct.

Your Soul Scope symbolises and sheds light upon - your purpose, your needs, your talents, your doubts, your sensitive spots, your destiny and more.

Whilst Reading Your Soul Scope

The overall accuracy of your Soul Scope is dependent on your birth time. Please bear in mind that although this horoscope is as accurate and informative as possible, there is no guarantee that every word will apply at this moment in time, or in the past or future. This horoscope maps out your potential; it is up to you what you make of this potential. You should always rely upon your own judgement and individual choice, will and inclination - which are precisely what your Soul Scope helps shed light upon.

Below your chartwheel the 'astrological positions' of your horoscope are set out by zodiac sign and degree which are interpreted in the following twelve chapters describing what they mean in your life. The number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more powerful and significant the meaning of that aspect will be. The keys for the planets and the other symbols and terms used are given at the back of the report.

Brad's Chart Elements

There are four Elements in astrology: Fire, Earth, Air and Water. Each Zodiac Sign belongs to one of these, and you have each of these Elements either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Brad's Earth Element Over-Emphasised

You are usually cautious, even to the point seeing yourself or life as boring. You can be very 'physical' and/or materialistic. You are inclined to be too predictable and habit-ridden.

To compensate, be less controlling, leave things to chance more, and make room for the unexpected. Learn to trust the Unknown. Also, look to any planetary placements in Fire and Air Signs, and make the most of them.

Brad's Air Element Under-Emphasised

You may find it hard to relate or view things impartially. You could be non- or even anti-intellectual.

To compensate, look to Mercury and Uranus, and if you know the time of your birth any placements in 3rd, 7th or 11th Houses, and make more of them. Identify what few, if any, planetary placements you do have in Air, and make the most of them.

Brad's Water Element Under-Emphasised

You can be out of touch with your own and others' feelings. You are not naturally empathetic. You may also be prone to toxicity.

To compensate, look to the Moon and Neptune, and if you know the time of your birth any placements in 4th, 8th or 12th Houses, and make more of them. Detox regularly. Identify what few, if any, planetary placements you do have in Water, and make the most of them.

Brad's Fire Element Balanced

You have a healthy drive without being too driven. You can amuse yourself and are easily enthused.

Brad's Chart Modes

There are three Modes in astrology: Cardinal, Fixed and Mutable. Each Zodiac Sign belongs to one of these, and you have these Modes either Over-Emphasised, Under-Emphasised or Balanced - as follows:

Brad's Fixed Mode Under-Emphasised

You may lack persistence and cannot, or find it hard to, stand your ground.

To compensate, determine your convictions and stick by them. Resist being a yes-person; there's seldom any future in it.

Brad's Cardinal Mode Balanced

You have a healthy sense of initiative.

Brad's Mutable Mode Balanced

You are moderately adaptable and alive to change.

You were born with...

Sagittarius Rising which is interpreted in Chapter One

Sun in Sagittarius in the First House which is interpreted in Chapter Two

Moon in Capricorn in the Second House which is interpreted in Chapter Three

Virgo at the Midheaven which is interpreted in Chapter Four

Mercury in Capricorn in the Second House which is interpreted in Chapter Five

Venus in Capricorn in the Second House which is interpreted in Chapter Six

Mars in Capricorn in the First House which is interpreted in Chapter Seven

Jupiter in Aries in the Fourth House which is interpreted in Chapter Eight

Saturn in Aquarius in the Second House which is interpreted in Chapter Nine

Uranus in Virgo in the Ninth House which is interpreted in Chapter Ten

Neptune in Scorpio in the Eleventh House which is interpreted in Chapter Eleven

Pluto in Virgo in the Ninth House which is interpreted in Chapter Twelve

The Planets symbolize various energies manifesting as dynamics of personality.

The Signs qualify or colour these energies, rather like a filter over a light.

The Houses designate areas of life experience upon which these energies focus.

The Aspects express how these energies dynamically interact with one another.

Note: Ongoing planetary influences throughout your life - be they in the past, present or future - as they apply to the planetary positions at your birth, are given and interpreted in your **Soul Guide**.

Chapter One - Your Ascendant: Appearance and Persona

AS in ♐

Sagittarius Rising

You are likely to see the world constantly as your oyster. To you, life is always full of great possibilities, extraordinary experiences, and horizons to disappear over. Such an outgoing and adventurous outlook is obviously an asset for you are great at exhorting others to do more and get more out of life. You stir people up, one way or another - whether you want to or not.

Some kind of philosophical or enterprising end has to be in sight so that there is an intelligent and appealing direction to justify your arousing nature. Put in another way, you have to have a product to match your advertisement. On a social level you are a good party person. In fact you are often the spirit of enjoyment itself. You excel at gathering people together for any reason, be it in the role of teacher, preacher or reveller.

Your physical features are usually broad, or at least there is a certain breadth of character that is both exciting and relaxing to be with; somewhat similar to standing next to a horse. Your physique can be rangy, lanky, or compact and energetic. But your expansive nature can manifest as a weight problem when not properly expressed. A long prominent jaw, with perhaps a horse-like grin, can also be in evidence. You will find that you attract people who wish to provide you with the facts and figures of life in an effort to counter-balance your adventurous projects.

You might see this as them checking your progress or limiting your freedom, but in fact they are making that vitally practical contribution which you can so easily overlook.

Jupiter is your Ruling Planet, which governs the link between your exterior being and your interior being. So study Chapter Eight - Your Jupiter Profile, with this in mind.

You also have the following planet or planets about to rise in the East at the time of your birth. Such planets are said to be in the First House. This further describes your appearance, persona and outlook on life.

Sun in the First House in the First House (See Chapter 2 - Your Sun Profile)

Mars in the First House (See Chapter 7 - Your Mars Profile)

Chapter Two - Your Sun profile: Your Will and Purpose

Sun in Sagittarius

Your essential purpose in life is to further and discover more about whatever it is that you regard as important. To enable you to accomplish this you are very able to grasp the whole meaning of any subject that appeals to your sizeable enthusiasm.

There is always a danger of running away with yourself and overlooking details, as you get carried along by your zest and full-blown opinions. However, because you are a good manager of things and know how to get the best out of people and circumstances, you have probably equipped yourself with something or someone that keeps you grounded by practical considerations. Some kind of goal, vision or belief is of paramount importance in making sense of your life and use of your prolific nature.

By the same token, you need to bear in mind that your ability to make a lot of anything had best not be employed solely for material ends - otherwise you could get stumped by a need for something that money or influence just can't buy. You also, in an impersonal way, like to create friction for it gives you the feeling that things are on the move. Yours is probably the most positive Sign for the simple reason that you see life as an opportunity. So it doesn't matter too much how difficult the road ahead may look, it is still a road - and roads go places!

Sun in the First House

All these qualities should be quite obvious in the way that you come across. You should allow and trust your identity to shine forth - warts and all. But just because you do wear your heart on your sleeve, you can feel rather self-conscious. This could then lead to a feeling that all your worst aspects are showing and so you retreat behind what turns into a cloud.

This hiding of your own light must be resisted; otherwise you'd be missing the point of having a naturally sunny personality that can shed light on whatever you regard as important. At the other extreme you can turn your self-consciousness into arrogance, which prevents you from taking on board any useful feedback for fear of it being negative. So whether you're prone to cutting off your nose to spite your face, or perpetually blowing your own trumpet, I think you'll find that working up an enthusiasm for yourself, tempered with a bit of modesty, will put a smile on the faces of both yourself and others.

Your Sun Aspects

Sun unaspected by any other planet

As the Sun is symbolic of your ego, that which around all other parts of your personality are gathered and structured, when unaspected it can pose difficulty in marshalling your talents and forces. It can therefore be some time before you do what you want to do for yourself, rather than responding purely to what you feel is expected of you. Until then, this could mean your living through someone else in your life, or through your Moon Profile, (Chapter Three) which would mean that your life-style was limited by your needs, rather than defined by your own conscious choice.

A strong alternative to this, however, can be that you feel entirely free to follow your own star, without paying any heed at all to what others want of you. If you're this type, you could become noted for your originality, but somehow still remain an enigma. John F. Kennedy was a good example of this.

In either case, a significant feature of your psychological profile consists of your having a father who is, or was, hardly there for you at all, or who's very much there to the point that one day you either have to detach yourself from his influence, or that he departs from your life relatively early. The ideal father would be one who is kind of there but not there, which means to say that he'd be a figure of strength but not in the least intrusive or dominating.

Perhaps in the final analysis, having an unaspected Sun poses having to be a father to yourself.

If you have difficulty in establishing your own will and living with a sense of conscious purpose, try deliberately involving yourself with the affairs of the House in which your Sun is placed (see above, this Chapter).

Also, thoroughly acquaint yourself with your Sun's Sign (see above). If you use meditation, meditate upon the actual symbol of your Sign - e.g. Scorpio: A Scorpion.

Finally, pay special attention to the Sign, House and Aspects of the Planet that rules your Sun's Sign. The planet that rules your Sun's Sign is:
Jupiter

Finally, follow the advice explained in Chapter 1 - Your Ascendant Profile.

Sun challenging your Midheaven

Something either gets in the way of your amounting to something in life, or you have an ambition that brooks no resistance. In either case that 'something' is your ego, and as such it is afraid of failing - which could be regarded as a failing in itself. You'll need to be clearer about what you are really trying to prove to prevent you, and those you work or live with, feeling too pressured.

The Sabian Symbol For Your Sun

Finally, to give a symbolic focus to the Sun in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. The Sabian Symbols were devised by astrologer Marc Edmund Jones and a clairvoyant called Elsie Wheeler. They may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Sun represents the essence or core of your life and its purpose, and to note how its Sabian Symbol corresponds to your Sun Profile, and your Chart interpretation as a whole. The Sabian Symbol for your Sun is...

"A FLAG-BEARER" - The ideal or ideals that go beyond personal safety and petty values.
Keyword: RALLYING. When positive, your willingness to sacrifice the lesser for the greater. Being an example of this. When negative, empty show and a demand for false credit. { A good idea here, and fun too, is to design your own personal flag. Try it! }

Chapter Three - Your Moon Profile: Your Needs and Emotional Responses

☾ in ♑

Moon in Capricorn

Your reigning need is to feel needed. This can prove quite precarious for you as others, especially your parents, can come to see you for what you can do rather than for what you are. Or, one of your parents was not there for you physically or emotionally.

From the word go, your need for external approval put you in a situation where your own emotional nature was not taken into consideration. As a child, were not acknowledged as one, and neither perhaps is the child in you now. Because your emotional interior was not nurtured, and was possibly even abused, you grew up with only a poor idea of how to cherish and value it.

Such emotional denial could cause you to be quite a survivor in the harsh outside world as a kind of substitute for a feeling of inner support. This could turn into a rather grim and lonely alternative, although your cool efficiency would possibly conceal this fact. Or again, you may look for the nurturing parent that you never had in a partner.

Conversely you could be a parent to your partner, and others too, as you deftly manage material affairs but this would eventually only serve to isolate you further. What you have to set about doing with your innately industrious nature is to look for, and find, that sad child inside of you, and possibly with professional therapeutic help, look after it yourself. In becoming the parent of your own inner child in this way, you then develop into an extraordinarily balanced and capable human being.

☾ in 2nd House

Moon in the Second House

Many of these needs and feelings apply especially to how you estimate your own worth, or earn an income, and to finances generally. Income and self-esteem are also subject to fluctuations, as are your moods and the market itself. By the same token, you may have an instinct for money and property. For better or worse you have inherited the same attitudes to money and self-worth as your family and especially your mother. Money can be earned catering to the public's needs.

Your Moon Aspects

☾ ☿ ♀ ★★☆☆☆

Moon uniting with Mercury

You have a pressing need to communicate or explain these feelings. This is a good thing inasmuch as it enables you to understand how you and others tick, and consequently to interact readily with them. But when you overdo this you can lose touch with your feelings on their own level. Yet if you don't think about how you feel - or again think about it too much - then your feelings prevent you from thinking straight. Either case can also incline you to chatter on as a kind of verbal overflow for your unmet feelings.

Obviously you need to find a balance between thinking and feeling, and between talking and listening. Merely going out and doing something can shift you into a clearer perspective.

☾ ♂ ♀ ★★★★★

Moon uniting with Venus

What comes to the rescue in all your emotional interactions is a certain softness that you have about you - whether you are male or female. Others find it easy to bathe in your pleasingly familiar aura. This talent of yours for soothing and making people feel good has many uses and can take many forms. What you do have to guard against though is being too soft and easygoing, because you can get taken advantage of, or seriously compromise your powers of assertion.

☾ △ MC ★★★★★☆

Moon allying with your Midheaven

A blessing you should frequently remind yourself of is that your background and instincts consciously guide you in your dealings with the world - securing both domestic and career interests in the process.

The Sabian Symbol for the Moon

Now, to give a symbolic focus to the Moon in your Chart, here is the "Sabian Symbol" for the degree of the Zodiac at which it was placed at the time of your birth. As I mentioned in the last Chapter - your Sun Profile, the Sabian Symbols may be read as interpreted, taken quite literally, or be given your own more personal or subjective interpretation much as you would for one of your dreams.

Remember to bear in mind that the Moon represents your unconscious disposition and responses, and your emotional needs and security, and to see how its Sabian Symbol corresponds to your Moon Profile in particular, and your Chart interpretation as a whole. The Sabian Symbol for your Moon is...

"TWO AWARDS FOR BRAVERY IN WAR" - Acts of courage, especially consistent ones, are not only effective in themselves for achieving an objective, or maintaining self-control or a certain standard against the odds, but are also recognized by whatever is seen to be the ruling authority in life. Such an authority can be one's country, god, conscience, or anything that is deemed to have a genuine sense of what is right and true. **Keyword: VALOUR.** When positive, the respect and impact that you have from and upon others because of your dependability in sticking to your guns in situations that would cause most people to take the easy way out. When negative, a very questionable self-righteousness.

Chapter Four - Your Midheaven profile: Career and Status

MC in 

Virgo at the Midheaven

Professions that require a sense of service or precision are very likely - examples of this being things like healthcare, graphic design, editing, critique, quality control, etc. However you should guard against feeling slave-driven or being too exacting in your career and what you feel the world expects of you. All the same, you can gain a reputation for high quality work.

The Sign, House and Aspects of Mercury (see Chapter 5) will reveal more about the nature and conditions of your professional development.

Chapter Five - Your Mercury Profile: Perception and Mentality

♀ in ♈

Mercury in Capricorn

Yours is basically a constructive mind, or one that is rather too matter of fact - depending on what you're using it for, or directing it towards. This is because it's a methodical mind that likes procedural ways of performing tasks and being in possession of solid facts - so you can make a good coordinator or successful business person. However, it should be noted that there's an inclination for you to get stuck at one level of thinking, which could lead to intellectual constipation and professional stagnation. To avoid this, incorporate an element of risk, idealism, or the unusual into your normally pragmatic way of going about things. Your inventive, or even wild ideas, (or somebody else's), are what gets something off the ground. Your innate practical way of thinking comes into its own sorting out snags, paperwork and keeping things on the rails. You have a wry wit and a sense of irony bordering on the wise.

♀ in 2nd House

Mercury in the Second House

These mental qualities of yours are a major material asset, or a major liability so it's important to get the best out of them and eliminate their weaknesses. The soundness of your mind greatly determines your income and the nature of your mind has much to do with what you do to earn that income. You may even work at something to do with finances. You prefer to concern yourself with practical issues - or you are forced to by circumstances. You are often fascinated by the small details of the physical world. It's as if by making such a contact you feel in touch with everything.

Your Mercury Aspects

♀ ♂ ☾ ★★☆☆☆

Mercury uniting with Moon

It's not easy for you to divorce your thoughts from your feelings. Trying to do so merely attracts emotional types whose irrationality drives you mad. Either the more you cling to reason the less reasonable things become, or else your own unresolved emotional issues get in the way of clear thinking. Once you have given your feelings their due and dealt with them accordingly (as described in your Moon Profile) your mental powers are released and increased.

♀ ♂ ♀ ★★☆☆☆

Mercury uniting with Venus

Added to all this you have an artistic flair or a way with words. You don't just do or say something - you do it with style, humour or grace. Any activity where a fine touch is required is well-starred. This could be playing a musical instrument, massage, or perhaps public relations. Writing well comes naturally to you also. Just be careful that you don't mistake fine words for equally fine feelings.

♀ ♂ ♂ ★★☆☆☆

Mercury uniting with Mars

Once you get a mental grip on something you're unlikely to let go of it until you've got the answer, truth, story or whatever it is that you're after. This terrier-like, foot-in-the-door, attitude of yours is invaluable in any kind of investigative activity. Your sharp and witty mind lights the way. You can also get easily agitated, but this does fire you to act and speak out thereby getting things done and out in the open. All the same, count to ten when wound up.

♀ □ ♃ ★★☆☆☆

Mercury challenged by Jupiter

When it comes to mental equipment you have more than your fair share - which can be a mixed blessing. Your mind can scan whole panoramas of thought. When it can follow this up with an equally impressive verbal, visual or aural expression of such large ideas, then the teacher in you shines forth. However, the hazard here is one of being full of great notions but not being able to communicate them without exaggerating to the point of gross inaccuracy or without saying too much. Your aim is actually to expand your sphere of thinking through study and experience, yet also to be practical, relevant and not merely academic.

♀ △ ♅ ★★☆☆☆

Mercury allying with Uranus

A significant quality of your mind is that it's naturally in tune with the times. You are able to grasp information quickly - or even obtain it out of thin air. Being so intuitive, you'd do well in areas of scientific or metaphysical disciplines, or anything that requires clear, objective and detached thinking.

♀ ✳ ♆ ★★★★★

Mercury working with Neptune

Through all of this you should always be aware that you have a cultured and imaginative mind, which should not be wasted on purely mundane pursuits. You have a subtle or poetic perception of the world and could be an exponent of the literary or visual arts - or at least have a keen appreciation of them. There is also the strong possibility of your being able to attune your mind to the thoughts of others. You have a very valuable mind.

♀ △ ♇ ★★★★★

Mercury allying with Pluto

When it comes right down to it, yours is an extremely profound mentality. At the very least you have a knack for getting to the root of a matter. Taken further, you are able to reach a deep understanding of the actual workings of the Nature of Life itself. You have a powerful mind that is not distorted by power games and mental conceit.

Chapter Six - Your Venus Profile: Attraction and Harmony

♀ in ♑

Venus in Capricorn

You view love and art, and the values concerning them, very much in a traditional light. Unless something or someone is tried and true through the passage of time you're not likely to trust your sentiments, talents or possessions with them. This inflexible dependence that you have upon fidelity, constancy and 'work well done' ostensibly makes for your being quite reliable as you give value for money or time spent on you or paid to you.

But your insistence upon trustworthiness can become a blind to your own emotional shortcomings, that is, a distrust based on subjective fear rather than objective conclusion. What can ensue from this is either you or your partner suddenly being very unreliable; or your being without anyone at all; or severe limitations materially as a result of not giving more of yourself to the world; or marrying or being married for money or status rather than love. Track down the cause of any deep distrust and then you and others will be as reliable as you think you and they ought to be.

♀ in 2nd House

Venus in the Second House

You like this sense of love and beauty to take physical shape - which means to say that they probably have a lot to do with how you earn your living. It also means that you are likely to attract and keep things of beauty and worth. And you enjoy this - which is the secret behind keeping this flow going.

Your talents and abilities are most likely to involve art, fashion, social skills, etc. You certainly do have money making potential - you are like a magnet to it. However, the value that you place upon it is crucial because it can make the difference between being loved for what you are and loved for what you have.

Your Venus Aspects

♀ ♃ ☾ ★★★★★

Venus uniting with Moon

You have an instinctive ability to satisfy these needs and senses. You have an attractive personality - at least, on one level of your being. You are also very accommodating of others and expect to be equally welcomed yourself. It is vitally important that you place a real and positive value upon this attractively abiding nature of yours; otherwise others can take it for granted.

♀ ♃ ♀ ★★☆☆☆

Venus uniting with Mercury

And all of your sense of love and beauty is expressed well verbally. What you say and what you write is naturally lyrical. The quality of your voice is also pleasant. Love and beauty constantly occupy your mind but equally, the lack of them perturbs your thinking. Truly, you grace your everyday environment.

♀ △ MC ★★★★★☆

Venus allying with your Midheaven

You employ the attributes of your Venus Profile as described here in a professional capacity - or if you don't, you certainly should. Your strengths and weaknesses in this respect, either advance or hold you back in your career. In any event, art, grace, beauty, or a sense of harmony is central to your profession.

Chapter Seven - Your Mars profile: Self-Assertion and Sexual Drive

♂ in ♑

Mars in Capricorn

You assert yourself best when you have planned just how you are going to get what or who you want. Without some kind of structure or timetable you get very little done thoroughly. On the other hand though, you can also stick too much to your formula and become limited by it. Once you've embarked upon your plan however, very little can stop you reaching your target.

You're also quite businesslike in your sexual attitude and approach - and don't like wasting your energy backing or chasing losers. You like earthy no-nonsense types because they turn you on and keep you turned on. Eventually you'll learn to be in good control of your sexuality, but should avoid suppressing it - which isn't the same thing.

♂ in 1st House

Mars in the First House

All this is quite apparent in your actual physical appearance or presentation. You put yourself forward quite spontaneously, or you feel pushed forward even though you'd rather not be. This natural assertiveness can be negatively or unconsciously expressed in accidents to your head or face, leaving scars. It could be said that your very identity is what you are fighting for and this could have been apparent at birth, with you bursting out as it were.

In any event though, you do have undeniable body energy, which needs directing into some physically competitive activity, sport or martial discipline such as karate. If you are not quite so aggressive, but are more pent-up, Tai Chi, Hatha Yoga or the like would be more suitable. In short, you just have to assert yourself; it's finding the right method, measure and motive that are the crucial issues.

Your Mars Aspects

♂ ☿ ♀ ★★☆☆☆

Mars uniting with Mercury

Yours is a very mental or nervous sort of energy. You can push on with mental tasks and achieve objectives while others have to take a rest.

Useful though your cerebral muscle is, you too should drop everything at regular intervals and let the world run itself for a while otherwise you could get so wound up you'd scotch all your best intentions through nervous exhaustion or through jumping down people's throats.

♂ ☐ ♃ ★★★★★

Mars challenged by Jupiter

You have a strong belief that your way of doing things is right - and you'll be forced to prove this time and again. In the process you become quite a crusader for whatever it is that you do believe in. You have a fairly abundant energy that enables you to sell, promote or fight for your cause, but this energy can also get you into scrapes owing to your sexual appetite or simply your failure to see when enough is enough. You must have sound values to guide your actions.

♂ △ ♃ ★★★★★

Mars allying with Uranus

You assert yourself most readily when striving towards an ideal or in the name of a cause, especially when it involves the scientific or metaphysical and by using whatever these disciplines have to offer, your progress - and that of others - is greatly advanced and facilitated. As a result of all this, you are likely to be a leader of some kind.

♂ △ ♃ ★★☆☆☆

Mars allying with Pluto

Your Mars energies come to you from deep sources. This means to say that you have enormous supplies and reserves of energy. Activities such as sexual or sporting ones, or anything that requires an unremitting drive, are what you are well equipped for.

Because of its very nature, you're likely to take this energy for granted but when you focus upon where it's actually coming from, the energy would be even more forthcoming. You could then benefit yourself and others by practising physical cultures like martial arts, Hatha yoga or spiritual/ sexual disciplines. At an evolved level, such energy has the power to heal.

Chapter Eight - Your Jupiter profile: Faith and Understanding

♃ in ♈

Jupiter in Aries

You have the enthusiasm of a child - whatever age you are - and because of this, you can go far in life. You just need to be careful that your natural eagerness does not become arrogance, or that your magnanimity does not get swallowed up by extravagance. You have a knack for avoiding being saddled with the same amount of mental and emotional baggage that others seem to accumulate. If you are not journeying light in this way, then it means you don't believe that life looks after those that live it - which is what you are supposed to believe in!

♃ in 4th House

Jupiter in the Fourth House

You have inherited this brand of faith and philosophy. This means that it is in your blood and so therefore you are not that conscious of it; it is just there. At some stage it may well be necessary for you to become more aware of the nature of this inheritance because either it's a negative faith and is doing you no good, or, it's positive and you're not making the most of it.

Your father's beliefs, or lack of them, have a lot to do with all this. A sign of your innate faith or luck can be seen in your domestic affairs and where you live. Your abode may well be large, mobile or involve human growth activities.

Your Jupiter Aspects

♃ □ ♀ ★★☆☆☆

Jupiter challenged by Mercury

To assist you in all this, it's important that you develop the right means of putting across your beliefs or intuitive ideas. Occasionally, maybe even frequently, you suffer from 'brain-jams', when you cannot find an avenue of thought wide enough to convey your ideas.

Just have faith that your ongoing verbal interaction with others, or one of the many books you read (or should read), or simply your ever-philosophical mind, will come up with the concept or the analogy that you require to make your point or make sense out of your life.

♃ □ ♂ ★★★★★

Jupiter challenged by Mars

Others, particularly certain men, will contest your philosophy and attitude to life. This serves to harden your own convictions and should not be allowed to weaken your resolve. Equally though, over-reacting and getting on your high horse may earn you a reputation for being intransigent and a 'you versus the world' type of situation could disastrously follow. For success, cultivate moderation.

♃ △ AS ★★★★★☆

Jupiter allying with your Ascendant

Whatever the level of your faith and enthusiasm is, it emanates from you quite easily. In response to this, others feel good and optimistic in your company. This attracts opportunity and help on both professional and personal levels.

Chapter Nine - Your Saturn Profile: Lessons and Responsibilities

♄ in ♒

Saturn in Aquarius

You are learning to free yourself from whatever is inhibiting you. In order to do this you have to establish a set of rules that allows you to break the rules that were laid down for you initially. If this sounds like a recipe for hypocrisy then you're right, it is - and you could lose (or never gain) many friends as a reaction to your double standards.

If, on the other hand, you take the trouble to devise a set of moral, political or psychological principles - and stick to them - then your impartial view of life can be of enormous help to anyone who feels caught between two camps. In order that you begin to meet this objective, you will attract relationships and situations that force you to come clean with the stark truth of the matter. In the process though, beware of merely being offhand about your shortcomings, because that would put you back to square one.

♄ in 2nd House

Saturn in the Second House

These lessons and tasks focus particularly upon the issues of self-worth and income or finances. Consequently, it is very likely that you either have trouble as a result of having too little money, or too much of it. In the first case, you are striving to improve your self-worth and thereby attract a better income. In the second case, you find it hard to know what you yourself are actually worth because others seem to judge you by what you own rather than what you are.

Tightfistedness with yourself could arise from the first case - tightfistedness with others from the second. In either case you are learning what is of real value in life. You could become an authority on quality.

Your Saturn Aspects

♄ ☐ ♆ ★★★★★☆

Saturn challenged by Neptune

Like it or not, you have some kind of social or spiritual obligation to fulfill. Until you have accepted this, discovered what it is and begun to act upon it, you feel dogged by vague feelings of insecurity or threats of material collapse. Indeed, ambitions or positions that you hold which are doing nothing for the common welfare are doomed to eventual failure.

Behind all of this lies the fact that you do have the makings of the practical idealist. Your Saturn and Neptune Profiles particularly shed light on these matters.

Chapter Ten - Your Uranus Profile: Awakening and Freedom

Uranus in Virgo

You belong to a generation (born during the 1960's) whose intention was to reform work methods and attitudes towards health. During this period technology transformed the employment situation with automation and computers. You are therefore quite likely to encounter difficulties and sudden changes on your own employment scene as new requirements arise and certain occupations become obsolete. You may wish to update office systems or overthrow bureaucracy.

Uranus in the Ninth House

These changes and advancement through technology or alternative disciplines, are likely to find their way into your life via further education, travel to foreign parts, or generally seeking to broaden your horizons through religion or philosophical thought and discussion. What you believe in has to have an unconventional, even rebellious, quality about it. You are likely to pursue systems of belief that originate in a culture very different to your own.

You could well decry religion, God, or anything divine and prefer to believe in what you know from your own experience rather than through what you've been taught. Sudden opportunities to travel or mix with the unlikely can come to you out of the blue. Such openings should be jumped at - it is your soul speaking! However, if Uranus has difficult Aspects to other planets, there will be a need for caution while you travel in or to other countries or unknown territories.

Your Uranus Aspects

Uranus allying with Mercury

With a bit of conscious effort you are able to make mental contact with these truths, insights or original ideas. Whatever else might not be free, your thinking certainly is, so your intellectual awareness leads the way to the liberation of other parts of your being. You are also able to liberate others.

Uranus allying with Mars

All of these qualities appertaining to your Uranus Profile you regard, or should regard, as providing the opportunity to lead and direct others. This 'Leader of the Pack' streak is what makes sense of 'you' to yourself and whether that pack is one or many, or just your own tail-lights, you are your own person - albeit often on your own.

Uranus challenging your Ascendant

Your desire for freedom is such that it makes it difficult for anyone to relate to you in a consistent fashion. You do what you want to do, when you want to and this is unlikely to keep a regular guy or girl for long. If this free wheeling style suits you then well and good - and you are electrically stimulating company. But for a stable relationship, you'd need to be less intransigent.

Chapter Eleven - Your Neptune Profile: Sensitivity and Spirituality

♆ in ♏

Neptune in Scorpio

You belong to the Neptunian generation born between the mid 1950's and 1970. As this generation came of age, established musical forms and the use of drugs took on more self-destructive and sexually explicit undertones. The seeking of 'highs' became heavier and also involved the underworld of crime more. The lack of Mankind's spiritual awareness which had been prevalent for some time became a more critical issue, with material status symbols becoming gods and sexual diseases - especially AIDS - becoming more threatening as the result of a lack of awareness as to the true and subtle nature of what intimacy means. The challenge to your generation is great indeed: to prevent degeneration.

♆ in 11th House

Neptune in the Eleventh House

For you, such sensitivity and spiritual striving find a focal point in your friendships, ideals, and group situations. Communes and workshops are, or have been, common on your agenda. Such friends or groups could make or break you, for they could be the typical bad lot that leads you astray, or the band of kindred spirits which lights your way.

Whatever group or social movement you find yourself in the midst of, what you get out of it always depends upon how honest you're being with those associates and upon how able you are to distinguish your own identity and social values from those of that peer group as a whole. There is a double-edged situation here that on the one side inspires you through a feeling of being borne on a wave towards the common goals of Humanity, and on the other, leaves you tossed upon the whims and fancies of the crowd merely dreaming of a better world and not actually doing anything about it.

Where your imagination is concerned, it is best used socially in the sense that you can inspire others with your fine sense of togetherness. Any artistic talents are well employed to this same end, rather than solely for your own amusement.

Your Neptune Aspects

♆ ✳ ♀ ★★★★★

Neptune working with Mercury

You are blessed with the ability to communicate freely or to give expression to these sensitive areas of your personality in some other way. Innate skills in the healing or performing arts are just a part of your multi-talented nature. Watch out though - for such ease of expression can make you blasé or indolent.

♆ □ ♄ ★★★★★☆

Neptune challenged by Saturn

Consciously or unconsciously, you are aware that shortcuts to enlightenment do not exist and so you avoid glamorous religious sects, believing drug-induced 'revelations', marriages made in heaven, etc. However, if you should ignore such innate awareness as you have, there will be hell to pay.

♆ ✖ ♇ ★★☆☆☆

Neptune working with Pluto

You're helped in taking steps towards enlightenment by the fact that doing so has become a more generally accepted pursuit since the horrors of World War II. However, you will need more than this point alone to set you off on this path.

Chapter Twelve - Your Pluto Profile: Power and Transformation

♇ in ♍

Pluto in Virgo

You are a member of the Plutonian generation (1956 - 1972) that grew up into a world where revolutionary changes began to take place with regard to the food that we eat and the way we work. Processing and pre-packaging of food has led to impurities and health hazards.

Work has been automated and 'the personal touch' has been removed. The introduction of more efficient means of birth control gave rise to an illusion of sexual inviolability when quite the opposite (sexual abuse) has increased. All these matters were in fact just crises waiting to happen so that they could be - or rather had to be - duly dealt with. You are a bristle in a gigantic new broom that will sweep clean. At some point you may well get obsessed over work and health as a deep sense of service and purity arises from your unconscious mind.

♇ in 9th House

Pluto in the Ninth House

Power and transformation come to you via your beliefs and moral standards. You have deeply held convictions concerning these matters, or else you'll feel hounded until you discover them. Behind all this you could have a 'hell-fire and damnation' sort of image of God which can either put you off religion altogether or make you into a zealot.

At any rate, you are fiercely opinionated. Sooner or later, you have to forge a reverence for some set of laws and beliefs that will guide you along your way, even though they will constantly go through changes. All this can give a prophetic sense of doom or the 'Day of Reckoning'. The prospect of death also plays an important part in your philosophy of life. Travel and higher education are activities that can change your life. So, if transformation is what you're after, then get thee to a college or an airport!

Your Pluto Aspects

♇ △ ♀ ★★★★★

Pluto allying with Mercury

You have the mental insight to learn much from all this. Consequently, you're more and more able to understand at a deep level how life and others operate. You are therefore the natural psychologist or physicist. Your mind works best when it has profound issues to chew on and get to the core of.

♇ △ ♂ ★★☆☆☆

Pluto allying with Mars

You're able to assert these powers personally rather than let them fester or lurk inside of you and you have a strong sexuality, which means that you can influence others in deep ways that are not necessarily physical.

♇ ♂ ♃ ★★☆☆☆

Pluto uniting with Uranus

Transformation will occur in your life one way or the other. Unless you heavily suppress any opportunity for change, some kind of departure from the lifestyle and culture that you were born into is bound to occur in the context of what your Pluto Profile indicates.

♃ ✖ ♆ ★★☆☆☆

Pluto working with Neptune

You know that we're all in the same boat and that it's a case of sink or swim. So, you look around, smile at your fellow human beings and pull together!

♃ □ AS ★★☆☆☆

Pluto challenging your Ascendant

There is something about your manner of expression which needs changing - if you have not already done so. If you are unaware of this you probably go around trying to change others and this only incurs resentment or attracts people who try equally hard to change you - and lasting conflicts ensue.
